In the State of Cali fornia the above is required by law Section 4442 of the Californi a Public Resources Code. Other states ma y h ave similar laws. Federal laws apply on federal lands. A spark arrester for the muffler is ava ilable through your Cub Cadet dealer or contact the service department, P.O. Box 361131 Cleveland, Ohio 441360019. CUB CADET LLC, P.O. BOX 361131 CLEVELAND, OHIO 441360019 Hydrostatic La wn T ractor Models L T1042 Oper ator' s Man ual L T1045 S ERIES 1000 L T1046 L T1050 1 2 3. 36 Summary of content 36 pages Page 1 Operator's Manual SERIES 1000 Hydrostatic Lawn Tractor Models LT1042 LT1045 LT1046 LT1050 IMPORTANT READ SAFETY RULES AND INSTRUCTIONS CAREFULLY Warning This unit is equipped with an internal combustion engine and should not be used on or near any unimproved forestcovered, brushcovered or grasscovered land unless the engine's exhaust system is equipped with a spark arrester meeting applicable local or state laws if any.

Read and follow all instructions in this manual before attempting to operate this machine. Failure to comply with these instructions may result in personal injury. When you see this symbol—heed its warning. Page 4. Follow the manufacturer's recommendations for wheel weights or counterweights to improve stability. 5. Use extra care with grass catchers or other attachments. These can change the stability of the machine. 6. Keep all movement on the slopes slow and gradual. Do not make sudden changes in speed or direction. Rapid engagement or braking could cause the front of the machine to lift and rapidly flip over backwards which could cause serious injury. 7. Avoid starting or stopping on a slope. Page 5 lockopen device. e. Extinguish all cigarettes, cigars, pipes and other sources of ignition. f. Never fuel machine indoors. g. Never remove gas cap or add fuel while the engine is hot or running. Allow engine to cool at least two minutes before refueling. h. Never over fill fuel tank. Fill tank to no more than. Page 6 replace immediately with original equipment manufacturer's O.E.M. parts only, listed in this manual. "Use of parts which do not meet the original equipment specifications may lead to improper performance and compromise safety!" 12. Do not change the engine governor settings or overspeed the engine. The governor controls the maximum safe operating speed of the engine. 13. Maintain or replace safety and instruction labels, as necessary. 14. Observe proper disposal laws and regulations for gas, oil, etc. Page 7 SECTION 2 SLOPE GAUGE OR A CORNER OF A BUILDING OR A FENCE POST PE S A. Unthread the fuel cap by turning it counterclockwise. Use only clean, fresh under 30 days old, unleaded gasoline. Fill tank to no more than four inches below the top of the filler neck to allow space for fuel expansion. Page 10 Throttle Control Lever The throttle control lever is located on the left side of the tractor's dash panel. This lever controls the speed of the engine.

When set in a given position, the throttle will maintain a uniform engine speed. Ignition Switch Module Fast Position WARNING Never leave a running machine unattended. Always disengage PTO, move shift lever into neutral position, set parking brake, stop engine and remove key to prevent unintended starting. Page 12 SECTION 5 OPERATING YOUR LAWN TRACTOR WARNING Use

extreme caution while operating the tractor in the REVERSE CAUTION MODE. Always look down and behind before and while backing. Do not operate the tractor when children or others are around. Stop the tractor immediately if someone enters the area. Select the height position of the cutting deck by placing the deck lift lever in any of the six different cutting height notches on the right fender. To change the direction of travel to reverse when operating with cruise control, depress the brake pedal to disengage the cruise control and bring the tractor to a complete stop. Then slowly depress the rear portion of the drive pedal with the ball of your foot to travel in reverse. For best results it is recommended that the first two laps be cut with the discharge thrown towards the center. After the first two laps, reverse the direction to throw the discharge to the outside for the balance of cutting. This will give a better appearance to the lawn. Do not cut the grass too short. Short grass invites weed growth and yellows quickly in dry weather. See Figure 10. Tighten the lock nuts to raise the front of the deck; loosen the lock nuts to lower the front of the deck. Retighten the two jam nuts loosened earlier when proper adjustment is achieved. Page 18 Parking Brake Adjustment Hex Nut and Lock Washer **WARNING** Never attempt to adjust the brakes while the engine is running. Always disengage PTO, stop engine and remove key to prevent unintended starting.

Pivot Bar Axle If the tractor does not come to a complete stop when the brake pedal is completely depressed, or if the tractor's rear wheels can roll with the parking brake applied, the brake is in need of adjustment. Page 19 SECTION 7 MAINTAINING YOUR LAWN TRACTOR NOTE Refer to Maintenance Chart on page 30 for a reference of recommended maintenance intervals. Do NOT pour more than 6 oz. Fill the crankcase until the oil level reaches the full F mark on the dipstick. Refer to Figure 14. Refer to the viscosity oil chart earlier in this section for information regarding the proper type of oil to add to the crankcase. Page 22 Spark Plugs Visually inspect the filter periodically for a buildup of residue inside the filter body, and for a dirty element which can be indicated by discoloration. Replace the fuel filter when dirty. Carefully pull the spark plug wire boot off of the spark plug. Page 23 Deck Spindles 7. Move the tractor's PTO Blade Engage into the ON position. 8. Remain in the operator's position with the cutting deck engaged for a minimum of two minutes, allowing the underside of the cutting deck to thoroughly rinse. 9. Move the tractor's PTO Blade Engage into the OFF position. 10. Turn the ignition key to the STOP position to turn the tractor's engine off. 11. Turn the water off and detach the hose coupler from the water port on your decks surface. 12. Page 24 3. Low Idle Speed Setting Place the throttle control into the "idle" or "slow" position. Place a block of wood between the center deck housing baffle and the cutting blade to act as a stabilizer. See Figure 21. Hex Flange Nut Wood Block The recommended operating tire pressure is approximately 10 psi for the rear tires and 14 psi for the front tires. Refer to the tire sidewall for exact tire manufacturer's recommended or maximum psi. Do not overinflate. Page 26 Battery Cutting Deck Removal The battery is sealed and is maintenance free. Acid levels cannot be checked and fluid can not be added.

Page 27 Hydrostatic Transmission Changing the Deck Belt Keep the area around the transmission cooling fan free of grass and debris at all times. The hydrostatic transmission is sealed at the factory and is maintenance free. The fluid level cannot be checked and on most models, cannot be changed. **WARNING** Be sure to shut the engine off, remove ignition key, disconnect the spark plug wires and ground against the engine to prevent unintended starting before removing the belts. See Figure 25. To ease in removing the belt in later steps, loosen, but do not remove, the bolt which secures the pivoting idler pulley to the idler bracket. To empty the system, run the engine until the tank and system are empty. **WARNING** Drain fuel only into an approved container outdoors, away from an open flame. Allow engine to cool. Extinguish cigarettes, cigars, pipes, and other sources of ignition prior to draining fuel. Parking brake not engaged. Spark plug wires disconnected. Throttle control lever not in correct starting position. Choke not activated Fuel tank empty, or stale fuel. Blocked fuel line. Faulty spark plug. Engine flooded. Unit running with CHOKE activated. Spark plug wires loose.

Blocked fuel line or stale fuel. Place knob in disengaged OFF position. Engage parking brake. See your Cub Cadet dealer or the retailer from which you purchased your tractor for information regarding price and availability. NOTE Cub Cadet Series 1000 lawn tractors are NOT designed for use with any type of groundengaging attachments e.g. tiller or mulboard plow. Use of this type of equipment WILL void the tractor's warranty. For California, engines produced in 1995 and later must be designed, built and equipped to meet the state's stringent antismog standards.

Page 35 CUB CADET LLC MANUFACTURER'S ONE YEAR LIMITED WARRANTY COMMERCIAL USE The limited warranty set forth below is given by CUB CADET LLC "CUB CADET" with respect to new merchandise purchased and used in the United States, its possessions and territories. Page 36 CUB CADET LLC MANUFACTURER'S LIMITED WARRANTY RESIDENTIAL USE The limited warranty set forth below is given by CUB CADET LLC "CUB CADET" with respect to new merchandise purchased and used in the United States, its possessions and territories. If a spark arrester is used, it should be maintained in effective working condition. Failure to comply with these instructions may result in personal injury. When you see this symbol—heed its warning. DANGER This machine was built to be operated according to the rules for safe operation. Do not touch wheel weights or counterweights to improve stability. Check overhead clearances carefully before driving. These can change the stability of the machine, which could result in serious injury. 6. Allow engine to cool shifting into reverse. The "Reverse at Idle" symbol indicates that the engine should be allowed to cool before shifting into reverse. Thoroughly inspect the machine for any performance and compromise safe operation. Unthread the fuel cap by engine is off, set the parking brake and turning it counterclockwise. Use only clean, fresh fuel. Remove the ignition key before removing the under 30 days old, unleaded gasoline. Fill tank to no shipping brace. Always disengage PTO, move tractor's dash panel. This lever shift lever into neutral position, set parking controls the speed of the engine. To start the engine, insert the key. Always look down and behind before and while backing. Refer to Leveling the Deck on page 17 of this manual for Adjust the deck wheels so that they are between 1/2 inch more detailed instructions regarding deck adjustment. To operate the cutting deck without mulching, appearance to Always disengage PTO, stop engine and remove key Pivot Bar to prevent unintended starting.

Axle If the tractor does not come to a complete stop when the brake pedal is completely depressed, or if the tractor's rear wheels can roll with the parking brake applied, the brake is in need of adjustment. The brake disc can be found on the right side of the transmission in the rear of the tractor. Refer to Figure 14. Refer to the viscosity oil chart earlier in this section. Please try again. Please try again. In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading. Full content visible, double tap to read brief content. Please try your search again later. You will want the correct manual depending upon your needs. The following guidelines are important depending on what you want a manual to do for you. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness.
